PROSPECTUS OF THE PROHIBITIONIST.

"If any State denies the retail and internal traffic in intoxicating liquors to its citizens, and calculated to produce licentiousness, vice, and debauchery, I see nothing in the Constitution of the United States to prevent it from regulating or restraining the traffic, or from prohibiting it altogether."—*Chief Justice Taney*.

ON or before the 1st of January, 1854, the Executive Committee of the New York State Temperance Society will issue the first number of a Monthly Temperance Journal, under the title of "THE PROHIBITIONIST."

It will be printed on a double medium sheet, making eight quarto pages, of four columns to a page, and, excluding advertisements, each number will contain an amount of reading matter equal at least to that furnished by our larger-sized daily journals, or to that of an ordinary duodecimo volume of 150 pages.

Its OBJECT.—To advocate the Cause of Temperance generally, and especially the Legislative prohibition of the Traffic in Intoxicating Beverages, to prepare the mind for the reception of this Prohibition, by showing its expediency and Necessity, and to secure by all the influence it may legitimately exert, the vigorous enforcement of Prohibitory Laws when obtained.

Its FIELD.—Dealing with general principles, with arguments applicable to every community where the traffic exists, and with facts illustrative of the evil of the traffic, the paper will be National in its spirit, in its scope, in its purpose, and, we trust, in its aim and execution. We desire to see the Principle of Prohibition established in State after State, till it becomes the recognized policy of the Nation. It is our aim to bear a part in this great work, and to see the Cause of Temperance established, not only in the organs of a society merely, but in the minds of the people.

Its NECESSITY.—The existing Temperance Journal, the *Prohibitionist*, is a valuable and useful publication, but its price is almost necessarily restricted to the friends of the cause. The *Prohibitionist* is designed for circulation (instead of being confined to the friends of the cause) for this purpose it is put at a price so low as to enable the friends of Temperance in every school district, by combined action and at an inconsiderable expense, to obtain a copy in each family that will consent to receive it.

Its PRICE.—One copy for one year - \$5 00
Three, for one address, one year - 15 00
And for each additional copy, \$1.00 will be added, for any quantity less than fifty copies.
For fifty copies to one address - 50 00
For 100 - 100 00
No subscription received for less than one year, and in every case the order must be accompanied by the money.

The paper will be under the general direction of the Executive Committee, who have received ample assurances of literary aid from not a few of the ablest and most successful writers in the temperance ranks throughout the Union.

The work will be stereotyped, and back numbers can be supplied to new subscribers at any time during the year.

All orders should be addressed to O. Seville, Publishing Agent,
